## ABOUT ME

Passionate Software Developer with expertise in ReactJS, Node.js, and Django, focused on building scalable and efficient web applications. Skilled in both frontend and backend development, creating secure, high-performance solutions. Strong problem-solving abilities, with experience in REST API development, authentication, and cloud deployment. Constantly learning and adapting to the latest technologies to drive innovation.

## EDUCATION

**KARNATAK UNIVERSITY**  
Masters in Computer Application

**CSI COLLEGE OF COMMERCE**  
Bachelors in Computer Application

**GOVT PU COLLEGE**  
pre university (PCMB)

## SKILLS

- Frontend: ReactJS, NextJS, HTML5, CSS3, JavaScript, Tailwind CSS
- Backend: Node.js, Django, REST APIs
- Databases: MongoDB, SQLite
- Cloud & Hosting: Vercel, PythonAnywhere, Heroku
- Version Control: Git, GitHub
- Other: Web Performance Optimization, Responsive Web Design

## LANGUAGES

- Kannada
- Hindi
- English

## PROJECTS

### MARKET SQUARE

[DEMO](#)

Python/Django

- Developed a scalable e-commerce marketplace platform using Django, Python.
- Designed and implemented REST APIs for seamless data communication.
- Optimized performance and mobile responsiveness, reducing load times by 30%.

### EXPENSE TRACKER

[GITHUB](#)

MERN STACK (BackEnd)

- Built a secure expense tracking system with React, Node.js, and MongoDB.
- Integrated JWT authentication and role-based access control for user security.
- Helped 50+ users efficiently manage personal finances and set budgets.

### WEATHER APP

[GITHUB](#)

ReactJS

- Created a real-time weather forecasting app with user-friendly UI.
- Integrated location-based weather updates using OpenWeather API.
- Optimized API calls to reduce latency and improve UX.

### PORTFOLIO

[LINK](#)

NextJS

- Designed and developed a personal portfolio website to showcase projects.

## CERTIFICATIONS

**Programming with Python 3.X**  
**Next.js Web Development**  
**NodeJS Masterclass**  
**React.JS Crash Course**  
**Responsive Web Design**
