ABOUT ME

Software Developer with expertise in ReactJS, Node.js, and Django, passionate about building scalable web applications. Strong experience in both frontend and backend development, leveraging modern technologies to create efficient solutions. Adept at designing, deploying, and maintaining applications while ensuring performance and security. Enthusiastic about continuous learning and staying up-to-date with the latest advancements in software development.

EDUCATION

KARNATAK UNIVERSITY
Masters in Computer Application

CSI COLLEGE OF COMMERCE
Bachelors in Computer Application

GOVT PU COLLEGE
pre university (PCMB)

SKILL

- Frontend: NextJS, ReactJS, HTML5, CSS, JavaScript
- Backend: Node.js, Django, REST APIs
- Databases: SQLite
- Cloud & Hosting: PythonAnywhere
- Version Control: Git, GitHub
- Web Performance Optimization
- Responsive Web Design

LANGUAGE

- Kannada
- Hindi
- English

PROJECTS

- **MARKETSQUARE**   **DEMO**

  Python/Django
  - Developed a web-based marketplace platform to enhance e-commerce experiences.
  - Utilized ReactJS, Node.js, and Django to create an efficient and scalable system.
  - Implemented REST APIs for seamless data exchange.
  - Optimized performance and ensured mobile responsiveness.

- **EXPENSE TRACKER**   **GITHUB**

  MERN STACK (BackEnd)
  - Built a secure expense tracking system using React, Node.js, and MongoDB.
  - Enabled users to manage personal finances, track expenses, and set budgets.
  - Integrated JWT authentication and role-based access control for enhanced security.

- **WEATHER APP**   **GITHUB**

  ReactJS
  - Created a real-time weather forecasting app using React and OpenWeather API.
  - Provided users with accurate weather data based on their location.
  - Optimized API calls to reduce latency and improve UX.

- **PORTFOLIO**   **LINK**

  NextJS
  - Designed and developed a personal portfolio website using Next.js and Tailwind CSS.
